- **Currently enrolled in Grade 8**
  Tulip Int'l school & college, Dinajpur, Bangladesh
  Expected graduation: 2028 (optional)

PERSONAL PROFILE

I am a passionate and curious learner with a strong interest in web development and modern technologies. I enjoy solving problems, creating interactive user experiences, and continuously improving my skills through real-world projects. I have hands-on experience working with both frontend and backend tools like React, Tailwind CSS, Express.js, and MongoDB. I value clean code, user-friendly design, and teamwork.

WORK EXPERIENCE

FRONTEND DEVELOPER (PERSONAL PROJECT) | 2025 – PRESENT
Math Quiz Adventure

- Designed and built a fun and interactive math quiz game targeted for children using React, Tailwind CSS, and Framer Motion for smooth UI animations.
- Implemented sound effects for correct/incorrect answers to enhance engagement and learning.
- Developed a fully responsive layout ensuring seamless experience on both desktop and mobile devices.

FULL-STACK DEVELOPER (PERSONAL PROJECT) | 2025
Blog-Craft

- Created a complete blog website with features like user registration/login, post creation, comments, and likes.
- Used React for the frontend, Express + MongoDB for the backend, and Firebase Authentication with JWT-based login for secure user sessions.
- Focused on dynamic data handling and UI feedback, using React Query for data fetching and Framer Motion for animations.

UI DESIGNER & DEVELOPER (PRACTICE PROJECT) | 2025
Parcel Delivery Dashboard

- Developed a modern and functional admin dashboard for managing parcel deliveries, with tables, modals, filters, and search functionality.
- Used React, Tailwind CSS, and SweetAlert2 to create clean UI components and interactive confirmation modals.
- Integrated REST API endpoints for fetching user and parcel data dynamically and styled the dashboard to be visually appealing and intuitive.
